IDEAL APPLICATION: PUBLIC HOUSING

RUGGED READERS FOR ACCESS CONTROL

P-455 Gibraltar
Proximity Reader

Guardian™ Series
Impact-Resistant

Gibraltar™ Series
Bullet-Resistant

Maintain Access Control Security
Even in Extreme Conditions

Farpointe Data, a DORMA Group company, is the access control industry's trusted global partner for premium RFID solutions, including proximity, smart and long-range technologies.

The quality, durability and reliability of Farpointe's Guardian™ and Gibraltar™ Series vandal- and bullet-resistant readers translate into significant financial advantages. In situations that may damage conventional readers, rugged Guardian and Gibraltar Series readers keep performing. As a result, end users eliminate costly repairs or replacements, while integrators avoid nuisance service calls. The bottom-line results are compelling: lower total cost of ownership (TCO) and greater return on investment (ROI) over the lifespan of access control systems.

Ideal applications include:
- Public housing
- Schools and universities
- Correctional facilities
- Inner-city environments
- Hospitals and healthcare facilities
- Factories and receiving docks

IDEAL APPLICATION: FACTORIES & RECEIVING DOCKS

IDEAL APPLICATION: CORRECTIONAL FACILITIES

Guardian™ Series 125-kHz Proximity Readers

Guardian vandal-resistant readers are machined from thick, polycarbon-ate material, feature epoxy potted electronics, and ship standard with tamper-proof screws. The result is a monolithic reader that can withstand the damaging effects of impacts, as well as pressure washing, steam cleaning, detergents, dirt and dust. Guardian readers are ideal for instal-lations requiring both read range and enhanced durability, indoors or out.

Guardian Benefits

- Impact-resistant construction
- Resistant to harsh cleaning chemicals
- Longer read ranges
- Broad support for other RFID technologies
- 13.56-MHz smartcard options available
- Limited lifetime warranty

Gibraltar™ Series 125-kHz Proximity Readers

Featuring a virtually indestructible exterior milled from a solid block of stainless steel, Gibraltar readers offer maximum durability. Each reader is reinforced with an antiballistic *Shot*BLOCKER® insert, a fiberglass-based composite that provides excellent protection against projectile or blast, fire and forced entry. Gibraltar readers are ideal for installations susceptible to crime and vandalism.

Gibraltar Benefits

- UL-752 compliant for bullet-resistant integrity
- Tough stainless steel exterior
- *Shot*BLOCKER® fiberglass composite interior
- Weather- and tamper-resistant epoxy potting
- Broad support for other RFID technologies
- Limited lifetime warranty

Guardian and Gibraltar Series Readers
SELECTION GUIDE

All of Farpointe Data's vandal-resistant readers are backed by a limited lifetime warranty.

Farpointe Data reserves the right to change specifications without notice.
