600 DPI Retransfer Printer

Retransfer print technology is the next level up to direct-to-card print technology. First, the image is printed on a film, then transferred from the film to the card. This technique is suitable for over the edge, heavy duty printing, improves reliability, and is suitable for a vast variety of card types, such as:

- Travel ID cards
- Entry permit cards
- Resident cards
- Identity cards
- Driver's licenses
- Student ID cards
- Financial institution cards

Features

- Industrial & commercial grade design
- High definition printing
- Rapid output, high productivity
- Over the edge full card printing
- Large card feeder capacity
- Supports variety of smart card encoders
- Covert security features – Microprint & UV
