

Discover the ePad II

ePad II is a sleek, portable, and ergonomically-designed electronic signature capture device. ePad II captures and binds electronic signatures and offers users the ability to assign a unique serial identification number to the host computer. ePad II comes bundled with IntegriSign® Desktop.

Bundled with every ePad product is IntegriSign® Desktop eSignature software with plug-ins for Microsoft Word and Excel, as well as PDF signing with pDoc Signer® and Adobe Acrobat, so you can start eSigning out of the box.

For software developers, IntegriSign Desktop also provides a set of SDKs for capturing signatures in PC and web applications and for interacting directly with the various ePadLink signature pads.

Key Features:
